PLANET AI Launches Free OCR Trial: Intelligent Document Analysis at your Fingertips

Rostock, 10 October, 2023 – PLANET AI, a trailblazer in artificial intelligence solutions since 1992, is excited to announce the release of its Free OCR Trial. This freely accessible OCR Trial offers to upload and capture own documents.

The trial is enabled by PLANET AI's Intelligent Document Analysis (IDA) software suite, powered by state-of-the-art AI technology for unparalleled accuracy in OCR. IDA showcases its capabilities by precisely recognizing machine-printed text (OCR - Optical Character Recognition), handwritten content (ICR - Intelligent Character Recognition), and even historical scripts. Moreover, the trial demonstrates IDA's search function, the Entity Finder, which is based on PLANET AI's patented PerceptionMatrix technology, enabling deep content analysis beyond the OCR/ICR results.

"We are delighted to introduce the OCR Trial, offering a straightforward way to evaluate our proprietary and multi-award-winning technology for capturing content from documents," said Jesper Kleinjohann, CEO, PLANET AI. "The powerful OCR technology forms the basis for intelligent document processing, enabling document classification, extraction from unstructured data, and advanced LLM-based content understanding."

The user-friendly interface of the free OCR Trial ensures a seamless and intuitive experience, allowing documents to be effortlessly uploaded for quick analysis. Whether it's processing digital documents or diving into historical archives, PLANET AI's OCR consistently surpasses expectations with exceptional accuracy and efficiency.

About PLANET AI

PLANET AI is a research-driven company dedicated to developing software products with human-inspired cognitive capabilities for information processing and understanding. By utilizing proprietary deep learning and artificial intelligence technology, PLANET AI empowers customers to unlock information trapped in unstructured documents, seize digitization opportunities, and eliminate manual effort for data capture. The Intelligent Document Analysis software suite offers comprehensive capabilities for customers with the common desire for short time-to-value automation and high-quality data capture, extraction, and understanding.

PLANET AI serves a variety of customers that include Fortune 500 companies, scanning service providers, as well as software vendors in business process automation and content management. Since its beginnings in 1992, PLANET AI has been dedicated to advancing neural network technologies and has established itself as a global technology leader in cognitive computing.
